FEATURES

- Attractive Grey laminate tabletop trimmed with bullnose edge band in your choice of four trim colors, Quartz grey, Cardinal red, Polo green, or Topaz blue. Also available for special order in any Bretford paint, trim and laminate option.
- Work surface is height adjustable in one inch increments from 24″ to 32″.
- Cord management bin with flip down door and grommet holes hide and organize electrical cords. Cord bin is set back 13″ from the front edge of the table on 24″d models and 16″ from the front edge of the table on 30″d models..
- 30″, 36″ and 42″w tables have one grommet hole and 48″, 60″ and 72″w tables have two grommet holes.
- 14-gauge sturdy steel base is constructed with an average of 30% post-consumer recycled steel and features a unique “Y” shape design.
- Complies with the GREENGUARD Environmental Institute’s GREENGUARD Children & Schools Indoor Air Quality standards, contributing to points toward Leadership in Energy and Environmental Design (LEED) Certification.
- Work surfaces feature a 1”, 45 lb density, furniture board substrate with laminated top and 3mm T-mold edge band that is attached along the entire perimeter of the top.
- Tops feature metal threaded inserts on the underside to attach the leg assemblies to for a metal to metal connection that adds strength and greatly reduces the possibility screws will strip or fall out over time.
- Tables come with adjustable floor glides or 4″ casters, two casters are locking.
- 42″, 48″, 60″ and 72″w tables are able to be accessorized with the PowerBar cord management system.
- Options include a 6-outlet power strip (ECF6), the Juice Power System, PowerBar cord management and hardwired electrical assembly, CPU tower holder, keyboard drawer, and work surface bridge packs.
- Proudly made in the U.S.A. using union labor.

MADE IN THE USA

All Connections series tables are made at one of Bretford's Chicago area manufacturing facilities using union labor.

SUGGESTED SPECIFICATIONS

All tables are height adjustable from 24–32" in 1" increments. Table top is made from 1" thick laminate furniture board, 45-pound density. Cord management bin is constructed from 20 gauge steel and measures 4"h x 5-3/8"d. It runs the width of the table, allowing space for optional shelves to be attached. One side is attached with hinges to the back of the modesty panel, and the other side closes with the choice of a thumb screw or theft proof screw (included) which attaches to the bottom of the work surface. 30", 36" and 42"w work centers have one grommet hole measuring 1-1/2" x 4" centered on the work surface. The 48"w work centers have two grommet holes located 24" apart. The 60" and 72"W work centers have two grommet holes located 30" apart. On the 72"w units, a 1"-square 18-gauge tube connects beneath the surface and runs across the length of the table between leg assemblies. Metal threaded inserts are installed into the underside of each top so the base is attached with a metal to metal connection. The legs are constructed from 14-gauge steel and the upper leg fits over the lower leg for height adjustability. The upper leg section is 1-1/4" x 2" steel tubing and the lower leg is 1" x 1-3/4". A modesty panel is constructed from 18-gauge steel and runs the width between the upper legs. Table shall be GREENGUARD INDOOR AIR QUALITY CERTIFIED® for Children and Schools. All steel parts are constructed with "prime" steel which has a 25% to 35% post-consumer recycled content and are finished in environmentally friendly Grey Mist powder paint. Model comes with adjustable glides or 4" casters.
